

Library Board Action
July 23, 2012

As decided at the July Board meeting, since we are spending less than anticipated on the art display system, there is additional money available from the fundraiser. The library has had complaints about our increasingly cranky and noisy laser printer. The Hewlett-Packard Model LaserJet CP1525NW color network printer is part of SELCO's summer cooperative purchase list. Librarian Grossardt requested Board permission to order it. Orders are due Friday, July 27th.

The motion was made by Liz Ellson, seconded by Becky Littlefield, that the printer be ordered.

Six affirmative votes (Pat Mohs, Becky Littlefield, Dave Braun, Phyllis Ruzek, Debbie Spitzer, Evonne Horn) were received by the due date. Motion declared carried.
